Portfolio Book

by Paws & Prints Pet Photography, LLC

Welcome to Paws & Prints Pet Photography based in beautiful Naples, Florida! We specialize in modern, journalistic-style photography combined with fine art photography of your beloved pet.

Our style is really a hybrid. Paws & Prints Pet Photography's inspirations come from so many different places, and we try to implement these muses in our images. We love the raw emotion of photojournalism and the power of classic portraiture. We believe in natural, soft lighting and choosing locations that your pets feel comfortable in so that they remain the focal point of their pictures.

We are observers most of the time, with very limited intrusion only when your pet needs a little encouragement. Ninety percent of our images are completely natural and unposed, and those are the ones that our clients usually discover end up being their favorites!

To display your images, Paws & Prints Pet Photography offers distinctive products and design services, including archival wall art products. We are a full-service photography business and our mission is to make sure our clients love their entire Paws & Prints experience from start to finish.

We want you to be thrilled with your entire Paws & Prints experience and will do everything possible to achieve that goal. That is why we offer a **100% Satisfaction Guarantee** - we stand behind our services and products!

We hope to earn the privilege of capturing YOUR pet's "forever" moments!

- *Michelle Wood*
Owner/Photographer

"When it comes to photographing dogs, she's one of the top photographers I've dealt with since I started working for the Humane Society five years ago. We couldn't be any happier with her."

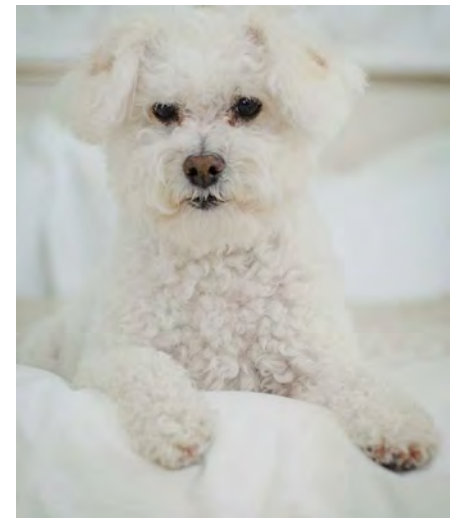

– **Rachael Johnston**

Marketing Coordinator
Humane Society Naples

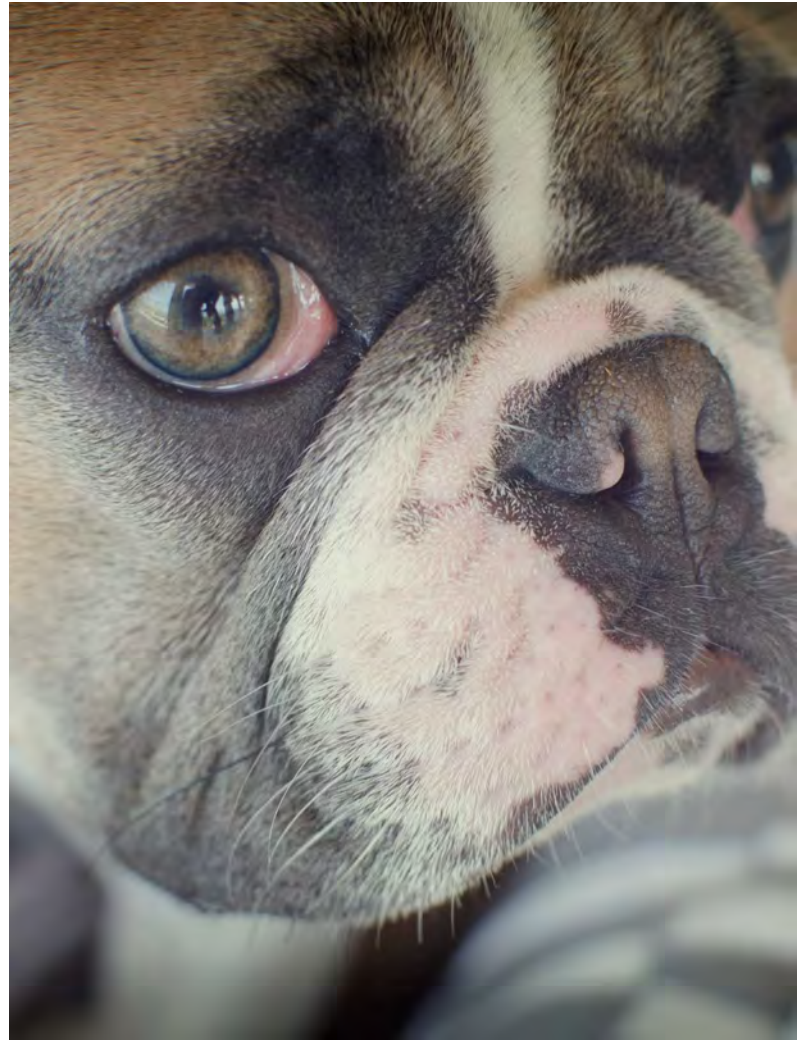

"Hi Michelle. We received your sweet note this weekend and our feelings are mutual. You did an outstanding job with the photography all the way through to delivery of gorgeous prints and went way out the way to make it feel like Christmas! Ted and I thank you for creating a great experience and at every opportunity we show our "Girls" app! What a treat!"

Who Am I?

I'm Michelle Wood and I've had an unbridled, undying love and passion for animals ever since I was a wee one. At one point of my childhood, I aspired to be a zoologist. But life took some unexpected twists and turns and I ended up working in the corporate sector for most of my adult life. It pays the bills but unfortunately, it doesn't feed my soul.

I have always possessed a strong interest in photography, but never quite had the time to actively pursue it. I love the way an interesting photo draws me in, compelling me to imagine what might have been going on at the very moment the shutter was released. I discovered that a well-composed photo is an extremely powerful way to convey and share a special story or message and that continues to fascinate me to this very day.

A few years ago, I received a Nikon DSLR camera as a gift from my husband and that was it – an addict was born. I threw myself into learning all I could about taking high-quality photos, practicing techniques every chance I could get. I found that the majority of my time was spent taking shots of my five rescue pets as my somewhat-willing muses. And then my “aha” moment came: I knew I needed to combine my love of animals and passion for photography in order to create a truly rewarding career for myself.

I want to apply my photography skills and graphic design experience toward capturing your pet's special story because sadly one day, your loyal pet won't be right there by your side. But you *will* be able to take comfort in knowing that his or her special story will live on forever through the power of timeless photography.

I would be honored to have the privilege of creating ***your*** beloved friend's timeless special story!

I hope you thoroughly enjoyed reading this book and that you found yourself smiling a lot while looking through the photos. THAT'S the power of professional pet photography!

If you loved the photos you saw in this book, please call 239.370.8499 to discuss booking YOUR pet's very own professional photography session. I promise you it will be an experience you will cherish for a lifetime!
